

5

step 5

To form the strap, tie 3 rope pieces, using the Lark's Head Knot, onto the bag about 2-3 inches below the place where the top cord is attached.

A few inches down, create another Wrapped Knot to finish the end of the strap. Trim the ends of the bag bottom and the strap bottom.

Next, begin braiding the six strands, as shown below. Near the bottom of the bag (on the same side that the strap is tied), bring 2 pieces of cord through part of the bag, then continue braiding. This is how the bottom of the strap is attached to the bag

*Shown here being made with t-shirt yarn!*
